

# Reaching Exponential Growth

In this new era of transformative consumption habits, and with the rise of the intelligent supply chain, businesses need to constantly integrate new processes, technologies, growth strategies, and advanced business models to prevent disruptions and facilitate the implementation of effective and sustainable solutions. Supply chain leaders need to deliver a high-quality customer experience, in tandem with cost reductions, in real-time... Every time!

Generix Group, experts in advanced supply chain execution solutions, helps you grow your business via powerful digital transformation. Its flexible and innovative technology allows your organization to easily scale your operations, freeing you to seize every opportunity for exponential growth!

**Seize the opportunity for  
exponential growth with  
Generix Group.**

# Why Generix

## Successful Deployments

For over 30 years, our in-house implementation team has collaborated with client teams to make deployments happen on time and on budget, no matter the level of complexity.

## Agile Solutions

Highly configurable solutions to support whatever the future brings. Whether you grow organically or through acquisitions, our solutions comply with Level 1 through Level 5 warehouses.

## Recognized by Gartner

Included in the industry-leading Gartner's Magic Quadrant for Warehouse Management Systems (WMS) Report

## Ease of Integration

We align our solutions to accommodate new processes, technologies, and business models. Our unified platform creates efficient and cost-effective data flows between departments and the technology stacks that support them.

## Swift ROI

Welcome to the new trade-off between cost, speed, and service. Reduce costs while improving customer experience beyond expectations. Let us show you how to calculate your ROI.

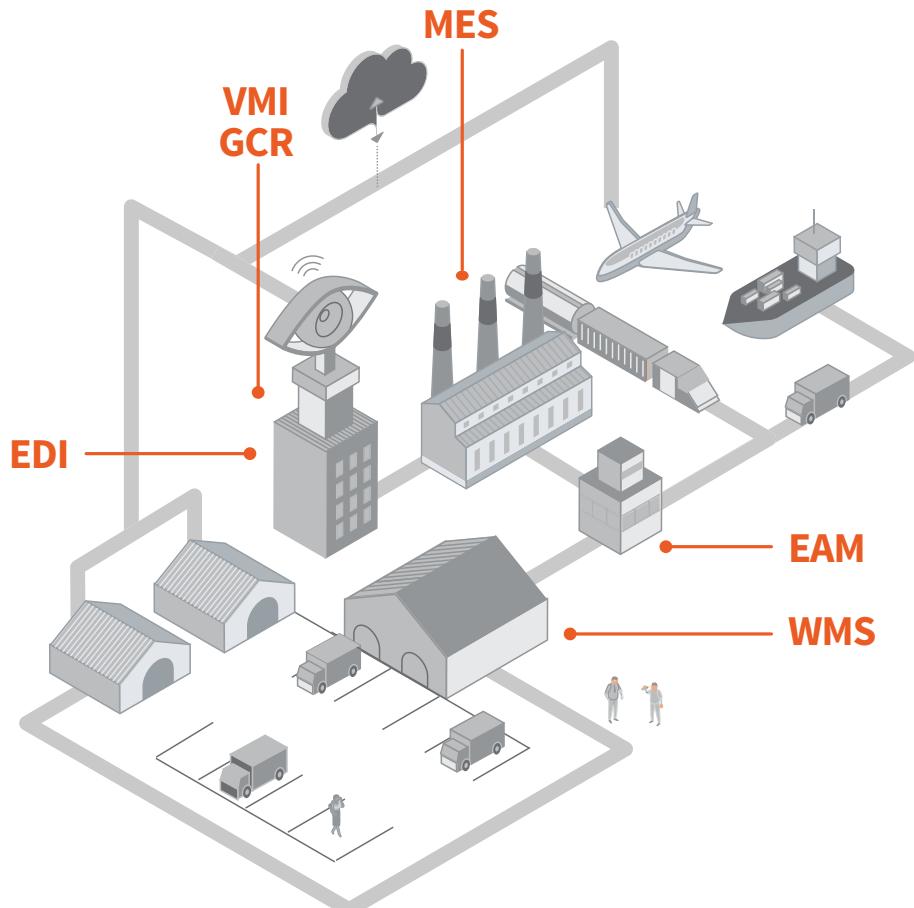

## Active User Community

A keen and engaged user community that helps shape future releases.

# The Value We Bring

- » Fulfill orders with real-time traceability and visibility
- » Make insightful in-the-moment decisions
- » Scale operations easily via innovative configuration capabilities
- » Integrate seamlessly with your ecosystem (e.g., ERP)
- » Retain staff and their knowledge
- » Reduce costs and human errors
- » Build an efficient and productive flow

## Where We Shine

We serve a wide array of industries, adapting to their special needs and regulations. We use predefined industry-specific templates to facilitate implementation time and accelerate time-to-value.

### Manufacturing

Enabling reshoring activities. Synchronization of manufacturing & logistics, using a seamlessly integrated WMS (Warehouse Management System) & MES (Manufacturing Execution System).

### Food & Beverage

Better demand forecasting & supply planning. Real-time visibility provides end to end traceability.

### Retail

Enabling omnichannel logistics flows.

### Wholesale

Advanced distribution functions and flexible order fulfillment.

### 3PLs

Responsiveness to rapid changes in logistics and supply chain demands.

# Global Presence

**30+ Years of Experience**

**60+ Countries**

**6000+ Clients**

## Evolving Beyond Resiliency

It's not enough to be resilient. Your logistics management must support your growth while reducing your costs and improving client experience. New technologies such as artificial intelligence, robotics, blockchain, IoT(Internet of Things), and advanced analytics capabilities, make sourcing, manufacturing, distribution, and delivery processes economically viable and sustainable onshore.

Ensure that you have the data to make critical decisions - all in real-time!

We have the experience, expertise, and skills required to enable you to prosper, particularly during periods of massive, unrelenting change. Implementing our next-generation supply chain execution solutions will not only assist you in being resilient but will allow you to thrive and grow beyond boundaries.
