March 29<sup>th</sup>, 2022

## **E-invoicing: Pitney Bowes and Generix Group announce the signing of a strategic distribution partnership agreement**

**The Generix Invoice Services solution from Generix Group, a global provider of collaborative SaaS Software solutions for the Supply Chain, industrial, and retail ecosystems and operator on the electronic invoice market for more than 20 years, has been selected by Pitney Bowes to be customized and launched to its French customers.**

Pitney Bowes is the leading provider of mail and shipping solutions for more than 100 years. It supports its customers in their flow of transactional documents and continuous digital transformation through multi-channel communication, digital payslips, electronic document management, electronic signature and dematerialization of invoices for public entities and private companies.

As the 2024-2026 French tax reform foresees the generalization of electronic invoicing for all companies, Pitney Bowes reinforces the support of its customers in their digital transformation and more specifically in their regulatory compliance.

This pluriannual strategic partnership will enable Pitney Bowes to offer its thousands of customers further development of their digital transformation with an e-invoicing service representing a potential processing capacity approaching one billion invoices each month.

With over 20 years of experience on the e-invoicing market, Generix Group offers a solution that covers all aspects of electronic invoicing with innovative components (E2E analytic, Multiway matching, Early payment discount, Cloud based OCR, AI agent, etc.) and is also compliant with nearly fifty regulations, making it one of the leading European e-invoicing platforms.

*"Our customers rely on us to help them succeed by removing complexity of their business processes. Supporting them with regulatory compliance is a critical part of our commitment. We are confident our strategic partnership with Generix and the Generix Invoice Services solution will meet the needs of our customers in France, for e-invoicing and ultimately for regulatory compliance in the context of the 2024-2026 tax reform."* Says **Antoine Watissée, General Manager** at Pitney Bowes in France.

*"We are very pleased with the signing of this strategic partnership agreement that now links our respective companies. This announcement is particularly important as it is part of the concrete roll-out of our Boost Together 2025 strategic plan. One of the pillars of the plan is the partner ecosystem, which will be resolutely enriched by this agreement, with international potential given Pitney Bowes' international presence"* declares **Aïda Collette-Sène, General Manager** at Generix Group.

#### About Generix Group

Generix Group is an expert in the Collaborative Supply Chain with presence in 60 countries thanks to its subsidiaries and network of partners. More than 6,000 companies around the world use its SaaS solutions. The group's 800 employees provide daily assistance to clients such as Carrefour, Danone, FM Logistic, Fnac-Darty, Essilor, and Ferrero in the digital transformation of their Supply Chains. Its collaborative platform, Generix Supply Chain Hub, helps companies keep their promises to their customers. It connects companies to all their partners so together they can operate physical flows, digitize information flows, and collaboratively manage processes in real time. Generix Supply Chain Hub is intended for all actors in the supply chain: manufacturers, logistic service providers (3PL/4PL), and distributors.

Founded in 1990 in France, the company is listed on the Euronext Paris Stock Exchange, compartment C (ISIN: FR0004032795).
