Generix Group certified by GS1 Factur-X

Generix Group, a global provider of collaborative SaaS Software solutions for the Supply Chain and Commerce ecosystem and operator on the electronic invoice market for 25 years, obtains the GS1 Factur-X certification, delivered by GS1 France.

With the GS1 Factur-X certification, Generix Group is one of the first 5 certified E-Invoicing operators in France. Factur-X is accepted on the Chorus Pro portal, the French administration's digital invoicing portal, and is one of the three e-invoicing standards selected by the DGFIP (Direction Générale des Finances Publiques, the French tax administration) in France as part of the upcoming 2024-2026 reform.

Factur-X is a new French-German mixed electronic invoice standard (PDF for users and XML data for automated processing). It implements one of the 2 syntaxes of the European Semantic Standard EN 16931 published by the European Commission on 16 October 2017 (UN-CEFACT CII). It allows a wide adoption thanks to several data profiles: Minimum (18 data), Basic WL (62 data: header, footer), Basic (Basic WL + 22 line data) and Extended (165 data)

Factur-X meets both suppliers' and customers' requirements and adapts to companies' technical constraints. The presence of an A3 PDF invoice image allows for rapid deployment of invoices while meeting the obligations of the European Directive 2010-45-EU regarding invoice legibility.

GS1 certification was obtained following the integration of multiple sets of invoice tests on the Generix Invoice Services platform over several weeks. For each Factur-X, a certification report was produced validating the correct analysis of the invoice data, the concordance of the data, the generation of the structured file and the validation of the A3 PDF file.

"*Obtaining GS1 Factur-X certification for our group is a further proof of our commitment to the development of electronic invoicing. We are already working with our customers to meet their challenges in term of invoicing and comply with the regulations set out in the 2024-2026 reform,*" says **Christophe Viry, Product Marketing Manager** at Generix Group.

About Generix Group
Generix Group is an expert in the Collaborative Supply Chain with presence in 60 countries thanks to its subsidiaries and network of partners. More than 6,000 companies around the world use its SaaS solutions. The group's 800 employees provide daily assistance to clients such as Carrefour, Danone, FM Logistic, Fnac-Darty, Essilor, Ferrero and Geodis in the digital transformation of their Supply Chains. Its collaborative platform, Generix Supply Chain Hub, helps companies keep their promises to their customers. It connects companies to all their partners so together they can operate physical flows, digitize information flows,

and collaboratively manage processes in real time. Generix Supply Chain Hub is intended for all actors in the supply chain: manufacturers, logistic service providers (3PL/4PL), and distributors.

Founded in 1990 in France, the company is listed on the Euronext Paris Stock Exchange, compartment C (ISIN: FR0004032795). To find out more www.generixgroup.com
